## **NEW YORK MARKET SHOWS FIRMER TONE**

Impression Prevails That Ship Building Row Will Be Settled.

(By the International News Service.) New York, July 21 .- The speculative New York, July II.—The speculative element pointed out after the close that it was impossible to determine whether there had been much change in the situation in Washington so far as preparation for the war is concerned. The drawing of the called men attracted most everybody to the exclusion of everything else, except routine and important business.

Some encouragement was derived

Some encouragement was derived from the Washington advices pub-lished yesterday morning indicating that Chairman Denman and Gen. Goe-thals had at least declared an armistice in their long-drawn-out contro-versy. The hope was generally ex-pressed that they had buried the hatchet and that from now on they would co-operate to the utmost in pushing the construction of the greatly needed ships for the transporting of men, munitions and supplies. In most circles it was claimed that the sharp recovery in the steel stocks under the leadership of Steel common was due more to a covering of a part of the extensive short commitments that have been made for the last week or two than to any material change in the steel trade.

Attention was called to the fact that so far as the Street has any knowledge the question of prices that will be offered by the government and ac-cepted by the manufacturers is as much of an unknown quantity as at any time since the idea of price-fixing was first suggested. This applies also in the copper trade which con-tinues extremely dull and consequently it is believed that the better prices for copper stocks yesterday were more the result of an oversold condition than anything else.

All-Comers to Win the Title. By PETER P. CARNEY. Why is a champion? Speaking

renerally, we don't know. Now, if you will change the question to a specific one and ask. "why is the national amateur trapshooting champion?' you'll start something. But before the "some-thing" gets going and monopolizes all of the allotted space, it is but fair that we explain why we cannot tell just why is a, for instance, golf or tennis champion, though we golf or tennis champion, though we are strong for these games as well as for all other outdoor sports. However unneutral you may be

with reference to any particular recreation you, will admit that "facts is facts" just the same as "pigs is pigs." and it is a toss up as to which is the more pig-headed at times, so not being responsible for either pigs or facts, we must ask you to put the blame where it belongs if you don't approve of pigs or don't like the way facts affect a phase of your favorite

To resume, the winning of a golf or tennis championship is simply a matter of an aspirant taking a pot shot at the "champion" who has won the honor by taking a pot shot at the champ who, in turn, had wrested the title from a preceding "champion" much on the order of the endless story that depends for its endlessness on a repetition of the words, "then another locust went in and took out another grain of corn, then another locust, etc., etc.,

Certainly it is true that our best friends are those who gently and kindly (and privately) tell us our faults, therefore, golfers and ten-nisers will drink heartly from our proffered loving cup. Incidentally, proffered loving cup. Incidentally, it is to be remarked that if Great Britain ever tried to take golf back home to Scotland, some half-mil-lion American trapshooters would rally in defense of the game, and est outfielde instead of "Hoot, mon!" it would who had hit be "Shoot, mon!" ### MUTUELS TO BLAME AT CANADIAN TRACK

New York, July 21.-Canada will put up the bars on horse racing the first of next month. The world war is not next month. The world war is not to blame, according to the Dominion lawmakers, who have not overlooked the fact that racing still lives in Great Britain. The death of the sport in Canada is directly due to the parimutuel betting system. The mutuels have dominated all the tracks north of the border. Public betting through the machines has become so great that the Canadian Parliament has been

WHAT AILS MAGEE?

American League. York, July 22.-Sherlock liolmes was some ferret in his prime There was nothing too mysterious to baffle him, and he tossed more moths on the Hindoo stuff than anybody who ever played headliner in the dime novels.

But for the good of Sherlock's rep it is a lucky thing he was never call-ed on to solve the sort of mystery that is pestering Bill Donovan.

There are several things pestering Elll, one of which is the well-known Jinx that has been parking itself on the trail of the Yankees ever since Wild Willyum agreed to manage the club. But the Yankee Jinx has noth-ing on the weighty question that has wrestled Bill around for two years the question of "what alis Lee Ma-

age is a mere trifle compared to the Magee mystery, in Donovan's estimation, because Magee has all the ear marks and the native characterist of a great ball player, enjoys the of health and is one of the most will-ing workers who ever wore a Yan-kee uniform, yet has failed miserably as a hitter in the big leasues since he became a member of the New York club.

Ruppert and Huston paid \$2,500 for the title to Magee when they pur-chased his release from the Brooklyn chased his release from the Brooklyn in Federals. His record in the big show as a member of the Browns and in the Federal League with Brooklyn indicated that he was a bear of a sticker, and he looked well worth the price, considering the fact that several other major league owners were breaking their necks to bid for him. # A Big Question

What few ships we now have are needed to supply food for our soldiers and allies in Europe. The nation can't spare enough to supply the market with crude rubber, metals and rag stock for munitions, medical instruments, and many other necessities.

We are meeting this condition by making our plant an assembling point for this kind of merchandise which can, and will, be converted into these necessities. WE CAN AFFORD TO SHIP THIS MATERIAL ONLY IN CARLOAD LOTS.

If we are compelled to ship less than carload lots the freight rates will be higher, and this necessitates an increase in the cost of material. Will this be just during the present crisis?

Will it be just and patriotic of the District Commissioners to compel us to ship smaller quantities of
